

### **Foreign Exchange Student Program:**

Admission is limited to high school aged students that are 15-18 years of age (F-1 and J-1 students). Students are expected to be fluent in the English language to be considered for admission.

Lakeview Christian Academy is an independent Christian school. Students must expect to be exposed to a Christian worldview at school and within their housing arrangements.

Lakeview Christian Academy is a private college preparatory school and does not operate like a public school in the United States. All of our families have to pay for the services provided by the school above and beyond the taxes they pay in the community. Therefore, in an attempt to provide all services offered by the school, we bundle/package all services into one cost in order to relieve exchange students and their parents from the burden of having to pay individually for services.

### **Total Cost for Attendance:**

**Annual Program: \$27,000 USA Currency**

**The total cost for attendance listed above must be paid in full through an electronic transfer of funds to the school banking institution prior to the issuance of the I-20.**

## Additional Information

Depending on the age/grade level of exchange students there is the possibility that he/she could participate in what we call a “senior” missions trip. This trip takes place prior to the end of the school year, typically during the month of May. Due to the significant optional nature of this activity, there would be an additional charge if the exchange student qualifies for the trip and chooses to participate in the trip. Additionally, these students participate in a number of fundraising events throughout the school year in order to keep the cost to each student at a minimum for the trip. An exchange student planning on participating in this event would be reasonably expected to participate in the fundraising activities.

Exchange student parents are expected to pay all travel costs associated with the arrival/departure to/from the United States, all costs associated with obtaining a student visa in your home country from the US embassy, and provide a sufficient amount of monthly financial support for the exchange student for miscellaneous leisure spending during their stay here. Exchange students should arrive in the USA at least one week prior to the start of the school year and leave the USA no more than one week after the last day of school.
